

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

# TABLE OF COMMONWEALTH LEGISLATION FROM 1901 TO 1907-8 IN RELATION TO THE SEVERAL PROVISIONS OF THE CONSTITUTION.

NOTE.—This Table is designed to group, under the several provisions of the Constitution, the enactments of the Federal Parliament passed by virtue of, or relating to, those provisions.

Its object is to facilitate reference to all the Commonwealth legislation relating to any particular provision of the Constitution, so that it can be readily ascertained whether and to what extent the legislative power of the Commonwealth has been exercised in relation to that provision or to its subject matter; or whether (in the case of those provisions of the Constitution which are expressed to have effect “until the Parliament otherwise provides”) any such other provision has been made.

The Table does not purport to be either authoritative or exhaustive. Enactments may incidentally derive support from, or relate to, other provisions of the Constitution than those with which they are primarily connected; but no attempt has been made to tabulate other than direct and obvious relations. For instance, almost every enactment made by virtue of a specific legislative power derives additional support from Section 51 (xxxix); but the only enactments which have been tabulated under that provision are those which are in the main derived from the incidental and not the specific legislative power.

Short titles of Acts not now in force are printed in italics.

State Acts passed in pursuance of powers conferred by certain sections of the Constitution are enumerated in footnotes.

Provided, however, that in respect of the age of the claimant, the Magistrate, if otherwise satisfied, may dispense with corroborative evidence.

(2.) If it appears to the Magistrate that the claimant, although otherwise qualified for, is unfit to be intrusted with, a pension, he may recommend that the claimant, instead of being granted a pension, be sent to a benevolent asylum or charitable institution ; and the Registrar shall at once notify the Deputy Commissioner, who may thereupon cause steps to be taken for the admission of the claimant into a benevolent asylum or any prescribed public or private charitable institution.

(3.) If the Magistrate is of opinion that, although the claim is not completely established, further evidence may be adduced in

(2.) In respect of matters found by the Magistrate to be simply unproved or insufficiently proved, the claimant may at any time thereafter, first giving the Registrar three days' notice, adduce before the Magistrate fresh evidence, and in such case all material points previously found by the Magistrate to be proved shall be deemed to be established, and the Magistrate shall dispose of all other points as in the case of a new claim.

35. Any person who at the commencement of this Act is the holder of a valid certificate entitling him to an invalid or old-age pension under a State Act may, instead of sending in a pension claim, deliver up his State certificate to the Deputy Commissioner, and the Deputy Commissioner may, subject to the Regulations, if he is satisfied that the person is entitled to a pension under this Act, issue a pension certificate to him.

### PART III.—PREVENTION OF DUMPING.

16. In this Part of this Act—

Interpretation.

- “Justice” means a Justice of the High Court ;
- “The Comptroller-General” means the Comptroller-General of Customs ;
- “Imported goods” and “Australian goods” include goods of those classes respectively, and all parts or ingredients thereof ;
- “Produced” includes manufactured, and “Producer” includes manufacturer ;
- “Trade” includes production of every kind ;
- “Industries” shall not include industries in which in the opinion of the Comptroller-General or Justice as the case may be, the majority of workers do not receive adequate remuneration or are subject to unfair terms or conditions of labour or employment.

Industries to which unfair competition refers.

17. Unfair competition has in all cases reference to competition with those Australian industries, the preservation of which, in the opinion of the Comptroller-General or a Justice as the case may be, is advantageous to the Commonwealth, having due regard to the interests of producers, workers, and consumers.

When competition deemed unfair.

18.—(1.) For the purposes of this Part of this Act, competition shall be deemed to be unfair, unless the contrary is proved, if—

- (a) under ordinary circumstances of trade it would probably lead to the Australian goods being no longer produced or being withdrawn from the market or being sold at a loss unless produced at an inadequate remuneration for labour; or
- (b) the means adopted by the person importing or selling the imported goods are, in the opinion of the Comptroller-General or a Justice as the case may be, unfair in the circumstances; or
- (c) the competition would probably or does in fact result in an inadequate remuneration for labour in the Australian industry; or
- (d) the competition would probably or does in fact result in creating any substantial disorganization in Australian industry or throwing workers out of employment; or
- (e) the imported goods have been purchased abroad by or for the importer, from the manufacturer or some person acting for or in combination with him or accounting to him, at prices greatly below their ordinary cost of production where produced or market price where purchased; or
- (f) the imported goods are imported by or for the manufacturer, or some person acting for or in combination with him or accounting to him, and are being sold in Australia at a price which is less than gives the person importing or selling them a fair profit upon their fair foreign market value, or their fair selling value if sold in the country of production, together with all charges after shipment from the place whence the goods are exported directly to Australia (including Customs duty).

(2.) In determining whether the competition is unfair, regard shall be had to the management, the processes, the plant, and the machinery employed or adopted in the Australian industry affected by the competition being reasonably efficient, effective, and up-to-date.

Certificate by Comptroller as to unfair competition.

19.—(1.) The Comptroller-General, whenever he has received a complaint in writing and has reason to believe that any person (hereinafter called the importer), either singly or in combination with any other person within or beyond the Commonwealth, is importing into Australia goods (hereinafter called imported goods) with intent to destroy or injure any Australian industry by their sale or disposal within the Commonwealth in unfair competition with any Australian goods, may certify to the Minister accordingly.

(2.) The certificate of the Comptroller-General shall specify—

- (e) the name, address, and occupation of any person (not being an officer of the public service) upon whose information he may have acted.

(3.) The Comptroller-General may add to his certificate a statement of such other facts as in his opinion ought to be specified to give the importer fair notice of the matters complained of.

statements.

(4.) The Comptroller-General shall, before making his certificate, give to the importer an opportunity to show cause why the certificate should not be made and furnish him with a copy of the complaint.
